

Manufacturers of
quality windows
& doors for trade

Welcome to Window Supply Company

Window Supply Company is a leading manufacturer and supplier of uPVC windows and doors to trade. With a network of local trade counters located throughout the UK, we support trade customers by combining market-leading products with exceptional quality and service.

With a dedicated team of highly skilled fabricators and knowledgeable, helpful staff in our trade counters, we understand that quality products, delivered on time and in full are essential. Since our start-up, we have an on-time in full score of over 99.5%.

With a carefully selected mix of innovative products from leading brands such as Linar and Clayton Glass we fabricate the highest quality windows and doors trade customers can be proud of. By combining quality products with unrivalled customer service and support, customers can be confident in a seamless fit and profit every time.

Combining technology & craftsmanship

Individually crafted

All Linar frames are individually crafted to order. Frames are manufactured in the UK under strict ISO 9001:2005 standards and hand finished in our state of the art manufacturing facility, ensuring each frame is perfectly crafted.

Custom built technology

Fully automatic high end machining centres (custom built for the UK window industry), deliver the ultimate solution for fast, accurate and efficient UPVC profile processing and cutting innovation.

Hand finished

Each frame is individually hand finished and meticulously tested to ensure the highest quality standards.

Product portfolio

- Casement Windows
- Flush Sash Windows
- Reversible Windows
- Tilt & Turn Windows
- Bi-Fold Doors
- Composite Doors
- French Doors
- Patio Doors
- Residential Doors

Accreditations

Recycling

At Window Supply Company we work hard to minimise our impact on the planet. All uPVC offcuts produced in the factory as part of the manufacturing process are recycled. All waste uPVC and cardboard are packaged, bailed, and sent to be recycled. Recycling facilities are provided at all trade counters so customers can bring back old window and doors for recycling. The old uPVC frames and glass are recycled to produce new uPVC and glass products.

**110,255 tonnes
recycled in 2022**

Buy direct from the manufacturer

With continued investment in technology and product innovation, we manufacture the highest quality windows and doors trade customers can be proud of.

The quality of our products is backed up by our BSi accreditations including PAS24 Enhanced Security and Secured By Design.

Market leading, award-winning UK profile

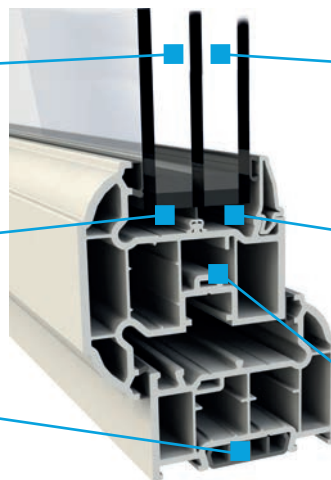

With unrivalled energy efficiency and a design that combats the shortcomings of older profiles, the award-winning Liniar windows and doors are market leaders for good reason. Designed completely from scratch, Liniar is the first brand new system of its kind in the UK in nearly two decades.

Patented designs Liniar has patented additional features that make its frames more energy efficient.

Spacer bars Warm edge spacer bars can be selected, separating each glazed panel for higher energy efficiency.

Thermal dam A patented thermal dam creates a multi-chamber thermal barrier at the frame's outer edge.

Glazing Liniar profiles are able to accept double or triple glazing, depending on your requirements.

Bubble gasket Patented bubble gasket is co-extruded alongside the frame itself - so no heat loss or leaks.

Glazing flipper Unique glazing flipper creates a thermal barrier to seal the perimeter, keeping the cold out.

The UK's Number 1 Glass Supplier ClaytonGlass

Glass is sourced from the UK's number 1 glass supplier. One of the UK's largest independent glass suppliers and a multiple winner of IGU Manufacturer of the Year.

Don't just take our word for it, see what our customers say:

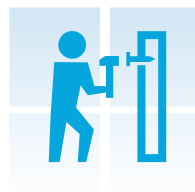

'The quality of the glass is exceptional'

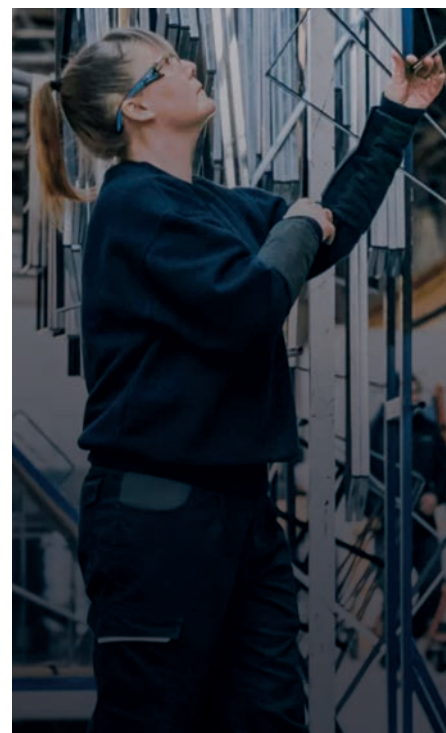

'Looks great, clean edges and good quality'

'Superior quality glass, clean with no scratches'

'Very little hot melt on the glass'

UK's #1 Glass Supplier

Zero|90 windows and doors

Revolutionary new range of ultra-high energy efficient windows and doors, unlike anything available in the UK today.

The 90mm Zero|90 window system looks exactly like a traditional 70mm PVCu system, with similar slim sightlines. It's the frame depth which allows for triple and quadruple glazing units, so the thermal and acoustic properties are significantly enhanced. **Zero|90 can deliver U values as low as 0.66W/m²K.**
